

General English

Student testimonials:

Andrea from Italy - I have finished studying at Impact. I am going back to Italy and wish to work for a pharmaceutical company. Through my study at Impact, I have improved my English a lot, and have met many people from different countries and cultures. The “English Only” policy has also been very useful to improve my English, especially speaking skills which I need for my future employment. It is a beautiful school with great teachers, and everybody is very friendly. I also enjoyed a few soccer games with my classmates.

Woo Jin from Korea - I have just completed a General English course and will start studying Business English from next week. I extended my study at Impact because of the teachers and useful activities. The teachers were always passionate, kind and know the most effective way to teach students. I really appreciate their help. On top of that, the strict “English Only” policy helped me to improve my English a lot. I am speaking English nearly all the time now. I sometimes go out with my classmates and we naturally speak English even though we are from the same country.

Miho from Japan - I studied General English at Impact. During my study at Impact, I was able to make many friends and started to like studying English. I studied English on the Gold Coast but Impact students were more serious about study, and it was good for me. The strict “English Only” policy at school was a bit difficult to adapt to initially but everyone tried to speak English each other. So now it is natural for me to speak English and easy to make friends with people from other countries.

Alejandro from Germany -After I arrived in Australia I started looking for a way to improve my English and to get in touch with some young people. I didn’t have to look for a long time. Impact College offered me more than just an English course. I was able to meet people from other countries, who gave me a great opportunity to train my ears in a very realistic everyday- speaking environment. Teachers were constantly observing how we communicate and corrected me. The most impressive thing was that even outside the school the students kept speaking English and tried to improve it. Being totally focused on the language every day helped me a lot.
