

Skills for TESOL/TKT

Student testimonials:

Lee Hye Eun – I am going to travel around Australia after the course. The most useful aspect of the course for me is the Teaching Knowledge Test (TKT) preparation. It helps me understand the language of English teaching.

Kim Eunhye – I am going back to Korea after the course and I am really enjoying learning practical teaching skills from the course.

An Hyun Jung – Studying in the TESOL/TKT course is a new experience for me and believe that it will help me to get a job in the future. I like studying here because everybody is very friendly.

Jo Pil Ah – I used to teach English grammar in Korea. I love warm up sessions and group discussions about teaching. Each lesson encourages me to learn more. I have two teachers who are very passionate about teaching. Through the practical lessons, I am learning a lot about professional teaching and can explain English grammar in a much better way now. I will definitely use all the teaching methods from the course in my class in the future.

Son Kyung Mi – Learning various English teaching skills is the best part of the course, and very helpful to me. I am going to adopt all the skills that I learned here when I go back to teaching in Korea.

Kim Yi Kyung – The course is very practical. I am able to review all my English skills in the class, and learning a lot of teaching techniques. Now I understand how to teach English effectively. It will be very useful for me to teach students in Korea. I am most satisfied with the course and love my teachers.

Kim Hee Kyung – I used to teach Elementary school kids in Korea and will go back to teaching once I get back. I really like doing teaching practice through peer-teaching. It is helping me a lot, especially writing and speaking since I have to practice a lot at home before the presentations. I also love learning all the classroom language through the course.

Kim Sung Joon – I haven't finished my degree yet so I am going back to university after this course. The course made me feel that I am not an English learner but an English user, and it gave me such a good feeling. I love teaching practice in the class and group/pair work. Class observations gave me a chance to think about being a teacher and class management strategies. I am going to use the teaching techniques that I learned here for tutoring in Korea.
